Past Performance

Big Data, Cloud and ERP Cloud Hosting (2010-2017):

Provided highly skilled staff members for Big Data implementation. Implemented full ERP and Predictive analytics on time and within budget. With implementation of the Big Data, Principle Info-Tech was able to provide On-Demand reporting for data centers and have successfully outsourced their production support services to our Houston Support Center.

Babcock & Wilcox, EPM Implementation (2009-2016):

Primed on the project to implement Enterprise Performance Management. Implemented Planning and Consolidation on time and within budget. Softwares used were SAP, Microsoft and LUXON.

3M, ERP Implementation (2010-2016):

Primed on the project to implement ERP, SAP HANA and EPM. Provided quality team to execute crucial tasks to perform world-wide implementation.

SAP America, Help desk and Staffing (2009-2017):

Over the last 7 years, we have provided more than 500 consultants to SAP for key support positions. For the last two years, we have been servicing second level support tickets at our Houston Support Center.

PMI and Lean Training (2009-2017):

Designed, developed, and delivered the highest quality project management training materials in over 3700 classes. Designed tools and simulation tests to help PMI examiners.

Differentiators
