

# BROCHURE ON PROJECT MANAGEMENT

## INTRODUCTION

**PROJECT MANAGEMENT** is the discipline of planning, organizing, securing, and managing resources to achieve specific goals. The primary challenge of project management is to achieve all of the project goals and objectives while honoring the preconceived constraints. Typical constraints are scope, time and budget. The secondary and more ambitious challenge is to optimize the allocation and integrate the inputs necessary to meet pre-defined objectives.

10. Project Procurement Management
11. Project Communications Management
12. Project Stakeholder Management
13. Professional Responsibility

## **BENEFITS OF PROJECT MANAGEMENT CERTIFICATION /(PMP®)**

- A differentiator against the competition. When employers are interviewing, the competition is often stiff. If you have the certification, and the other person does not, you are at a definite advantage.
- Gets your foot in the door in the new area. Many career changers turn to certifications to get themselves into a new area. For example, many technical people who want to advance will earn the PMP® certification in order to move into a position of greater responsibility.
- Will enable you to make more money. Often, earning a certification, such as the PMP®, can quickly lead to compensation increases of 20% and more.
- Enables you to better evaluate the talents and skills of others. With the discipline to master the material for the certification, you are in a better position to evaluate the skills of others. You have had the opportunity to evaluate your own strengths and weaknesses in the process of earning the certification, and have a broader understanding of the skills and toolsets that can be effective.
- You can be a better mentor. The ability to mentor is based greatly on experience, but the best mentors can reach beyond their experience. They are able to extrapolate from their experience, and relate it to someone else's entirely different experience.
- The participants can claim upto-35 PDU's (PMP® contact hours)

PMI®, PMP®, CAPM®, PgMP®, PMI-RMP®, PMI-SP®,  
PMI-ACP® & PMBOK® Guide are the registered marks  
of the Project Management Institute, Inc
